

TUE MAY 26 • OFFICE HOURS

get paid in CRC. get listed.

two ways money flows toward you on circles,
plus how to put your app where users find it.

TODAY

three things.

passive fees from your group • direct
payments into your org • a PR to get listed.

01 **your group**
every CRC mint by a member pays your treasury a cut.

02 **your org**
whitelist a group's CRC, payments stop bouncing.

03 **your listing**
one JSON entry in `aboutcircles/CirclesMiniapps`.

You have 110.94 CRC
ready to be created

 CRC allocation	110.94 CRC
 Inviter fee	9.24 CRC
 Supported group fee	Change 9.24 CRC
 Gnosis fee	9.24 CRC
 You receive	83.21 CRC

 Create 110.94 CRC

EVERY TIME A MEMBER MINTS CRC

a cut lands in your **group treasury**.

members opt in by setting your group as their main. they can switch any time. treasury ops convert collected fees → group token to distribute.

SET UP • [CIRCLES.GNOSIS.IO/ADMIN/MINIAPPS-GROUP-MANAGER](https://circles.gnosis.io/admin/miniapps-group-manager)

open the org manager

search a group, hit allow CRC

payments from that group's members now land

external signers · for backend payouts

add an EOA so a backend can sign prize-pool or cashback payouts without touching your main signer.

```
193 +   {
194 +     "slug": "card-circles",
195 +     "name": "Card Circles",
196 +     "logo": "/app-logos/card-circles.png",
197 +     "url": "https://cards-maxnormal.vercel.app/",
198 +     "description": "Card games on Circles network. Play classic card games – Cribbage, Golf Solitaire, Blackjack, Pyramid and more to come – 1 CRC per game with seasonal leader board distributions.",
199 +     "tags": ["game"],
200 +     "category": "garage"
```

01 fork & add your entry

copy the shape above. seven fields, one JSON object.

02 drop your logo

PNG into `/app-logos/<slug>.png` – slug has to match.

03 open the PR

broken url, missing logo, or a hand-wavy description gets you rejected. send a working app.

REGISTRY

EXAMPLE PR

pull/33 · card circles

IF IT BREAKS • CHECK THESE FIRST —

three errors you'll keep answering in chat

payment failed	→	whitelist the sender's group in your org-manager
no fees showing up	→	members haven't set your group as their supported group
PR rejected	→	broken url • missing /app-logos/<slug>.png • vague description

none of these? drop the error + your address in t.me/about_circles/499 – we'll dig in.

OFFICE HOURS

your turn.

demo or debug.

drop a URL, paste a bug, or show what you built. we'll work it before fri.
